August 14, 2018 – 1:00 – 3:00 pm

This is the program for parents with preschoolers aged 3-5 where you can play some games that build trust, boost imagination and teach some tools to support brain development. It is all based on the latest neuroscience so it's not only a lot of fun, it will help build your child's brain. Parents and children will have fun trying out new activities and materials, parents will leave with some great ideas of new activities to try at home.

Please register on-line at www.familiesmatter.ca
